

Background:
Despite the disappointing cancellation of the new discipline for Paris 2024, the offshore sailing trend is unbroken. More and more top sailors from different sailing disciplines discover offshore sailing as new discipline and perspective. The original concept of the "Double Handed Mixed World Series" finds a new innovative approach with the new orientation.

Connecting through sport
Sailing sport as a connection between peoples
Especially in these difficult political times, sport has the task of connecting people and nations with each other. Sport can overcome barriers and build bridges between nations.
